

ELIOS Inversa 1510 Meter

Inversa 1510 Meter DTSU666 3*230/400V 1.5(6)A 4P

Data Sheet

The Elios Inversa1510 Meter delivers precise real-time measurement and monitoring for single, two, and three-phase hybrid inverter setups. It accurately tracks voltage, current, active/reactive power, frequency, and four-quadrant energy, providing detailed insights into solar energy production and consumption. Using advanced digital sampling technology, this compact DIN35mm rail-mounted meter ensures easy installation and seamless integration with your energy management system.

SPECIFICATIONS

Voltage (V)	Current (A)	Impulse Constant		Accuracy Class
		imp/kWh	imp/kvarh	
3 x 230/400	1.5 (6) A	6400	6400	Active Class 0.5 S, Reactive Class 2
	5 (80) A	400	400	Active Class 1, Reactive Class 2
